*B.Tech student specializing in **Artificial Intelligence and Machine Learning** with hands-on skills in **Python, SQL, Java, Spring Boot, Machine Learning, and Data Analytics**. Experienced in developing **REST APIs, AI/ML applications, database-driven systems, and data analysis solutions**, with strong problem-solving skills and a focus on building practical, scalable solutions.*

EDUCATION

GOVT High School

10th · GPA: 7.62

Cumbum

June 2021 – May 2022

Narayana Jr College

12th · GPA: 8.77

Vijayawada

June 2022 – May 2024

Prathyusha Engineering College

BE-CSE(AI/ML) · GPA: 7.78

Tiruvallur

June 2024 – Expected 2028

EXPERIENCE

Code Alpha

1st July 26 – 31st July 26

Machine Learning Engineer

- Completed a one-month Machine Learning internship, contributing to organizational activities with dedication and consistent performance.
- Applied analytical skills to support machine learning-related tasks and problem-solving.
- Adapted quickly to emerging technologies and acquired new technical skills during the internship.

PROJECTS

[Doc Analyser](#) / Python, RAG, React, Flask-CORS, CSS & JS

- Implemented a Retrieval-Augmented Generation (RAG) pipeline using LangChain and Sentence Transformers to chunk documents, generate embeddings, retrieve relevant content, and generate context-aware responses.
- Integrated multi-format document processing for PDF, DOCX, PPTX, XLSX, and images using PyMuPDF, PDFPlumber, OpenCV, Tesseract OCR, Pandas, and related libraries

[Disease Prediction](#) / Python, Flask, Random Forest, Logistic Regression, Pandas

- Trained and evaluated Logistic Regression and Random Forest classifiers using stratified train-test splitting and ROC-AUC/accuracy metrics, selecting the model based on ROC-AUC performance.
- Developed CardioAI, a machine-learning-based heart disease risk prediction web application using Python, Flask, Scikit-learn, Pandas, and NumPy.

TECHNICAL SKILLS

Programming Languages : Python, Java

AI & Machine learning : Prompt Engineering, NLP, LLM's

Web Development : Node.js, React.js, MongoDB, Flask

Developer Tools: Git, Github

Soft Skills: Good Communication, Problem Solving, Unique Thinking

CERTIFICATIONS

Code Alpha Internship — Code Alpha, 31 Jul 26

TCS ION Career Edge - AI Foundation — TCS Ion, 20 Sep 2026

TCS ION Career Edge - Generative AI Essential — TCS Ion, 20 Jul 2026

TCS ION Soft Skills — TCS Ion, 8 Jun 2026

MongoDB Data Base, 20 Jul 2026
